Indian Physical Laboratories

<https://www.indiamart.com/indianphysicallaboratories/>

We are one of the leading names in manufacturing and exporting an extensive range of embedded control system, that find a wide application in electrical industry. These can also be offered in standard as well as customized specifications.

About Us

Incepted in the year 1999, Indian Physical Laboratories, is amongst the prestigious manufacturers and exporters of embedded control systems. These successfully cater to the needs of electrical industry and are appreciated by our clients, which includes various OEMs.

Our shift production counter, simple counter and timer, temperature controllers, production meter, and batch counter are known for their attributes of excellent speed control, non-volatile flash memory, and application specific design. All our control systems have **Siemens Certification**, which proves their high quality standards.

To develop these systems, we have modern facilities comprising a manufacturing unit, a design unit and R & D wing. Experienced professionals manage these facilities and are constantly guided by our CEO Mr. Ramesh. His able guidance has assisted us in developing the expertise in customizing our embedded control systems, as per the specifications provided by clients.
